INDEX.

Abdomen, cases illustrative of injuries to the, 698
Abdominal parietes, deficiency of, 125
—— tumour, cases of, 53
ABERDEEN CORRESPONDENCE.—The Medico-Chirurgical Society, 100—Typhus fever, 110—Resignation of Dr. Kilgour, ib.—Case of hydatids of the heart and lungs, 225—Fever and small-pox, 226—Diphtheria, 312 — Royal Infirmary, 508 — Prevalence of typhus fever, ib.—Acupressure, ib., 683
Aberdeen Infirmary, 27
——, medical education in—apprenticeships, 404, 429; University of, pass-list of, 509
Absorption, poisoning by, 345; of dead bone, on the, 271
Acne rosacea, treatment of, 512, 541, 571
Aconite, suspected death from, 55
Acupressure in amputations, 580, 620, 682
Acting assistant-surgeons, 495, 737
Adams, Mr. J., incontinence of urine in boys, 622
——, Provost, of Lanark, presentation to, 286
Addenbrooke's Hospital, Cambridge, 5, 54, 518
Addison's disease, with characteristic melasma, case of, attended with fatal result, 269
Advanced Life, a Practical Treatise on the Diseases and Infirmities of (review), 97
African commissariat, 134
Aitken, Dr. W., the Science and Practice of Medicine (review), 12
"Alabama," the surgeon of the, 730
Albuminuria in children, on the treatment of, 608
Albuminuric aphonia, on, 208
Alcohol in disease, the use of, 357
Alcoholic stimulants in typhus fever, facts and conclusions as to the use of, 291
Aldershot, army medical library at, 426
Alderson, Mr. F. H., icteroid and urethral discharge, 137; effects of the sun on the skin, 458
Alexander, Mr. T., the late, marble bust of, 401
Alkali works, the inspector of, 140
Alopecia, 270
Althaus, Dr. J., on Paralysis, Neuralgia, &c. (review), 355
Amaurosis, on some of the Forms of Diseases of the Eye constituting the condition commonly called (review), 355
Ambert, le Général Baron J., le Baron Larrey (review), 126
America, medical students in the States of, 684
American Pharmacopœia, the, 51
Anæsthesia, local, 202
Anatomy, Descriptive and Surgical (review), 212; and surgery, on the progress of, during the present century, 661, 719
Anencephalous monster, an, 58
Aneurism, of the arch of the aorta, 185; diffused false, springing from a dilatation of the descending aorta, case of, resulting in death, 245; of both popliteal arteries, cured by compression, ib.; of the aorta opening into the superior vena cava, 409; of the abdominal aorta bursting outside the peritoneum, 410; of the arch of the aorta, as large as a child's head, bursting into the right pleura, 411; abdominal, clinical illustrations of, 486; of the abdominal aorta which was cured by compression of the artery immediately above the tumour, 667
Aneurisms, on a new method of procuring the consolidation of fibrin in certain incurable, with the report of a case in which an aneurism of the ascending aorta was treated by the insertion of wire, 383
Animalcule of typhoid fever, 286
Anomalous disease, an, 58
Anthropology, Introduction to (review), 161
Antipodal hygienics, 279
Antrum, malignant tumour of the left, involving left side of hard and whole of soft palate, 9
Aphonia, functional, of ten years' duration, 125
Apjohn, Dr. J., the British Pharmacopœia, 503
Apoplexy in a police cell, 286
Apothecaries' Hall, pass-lists of, 26, 86, 111, 140, 172, 200, 229, 285, 314, 342, 370, 400, 426, 454, 481, 509, 538, 566, 598, 625, 654, 734; licence of, in the army, 262; conversations at, 641, 684; of Ireland, the licence of the, 561, 650, 653, 679, 681, 711
Appendix epiploica in a hernial sac, 125
Arm, severe injury to the, from a printing machine, case of, in which amputation at the shoulder-joint was performed without cutting through the integuments, 610
Army estimates, the, 667
Army, jobbing in the, 649
—— medical service, the, 144, 174, 252, 259, 281, 304, 317, 366, 444, 457, 537, 541, 549, 615, 620, 657, 687, 735; promotion by selection in the, 144; Ireland and the, 166; pass-list of candidates for the, 230; reorganization of the, 310; supplementary examination in the, failure of the, 416; the breakdown of the, 565; the Edinburgh College of Physicians and the, 617; discontent and difficulty in the, 707
——, surgeons in the, horse allowance to, 193; are they combatant officers? 289
Arnott, Dr. N., the Elements of Physics and Natural Philosophy (review), 355
Arsenic, on a case of poisoning by, 697, 732
Arthur's (Dr.) hernia splint, 642, 717
Ascarides, treatment of, 317, 373
Ashe, Dr. I., the medical officers of Irish dispensaries, 688
Asthma, on the treatment of, by the iodide of potassium, 92
"Athenæum," the, and "Hard Cash," 200
Atmospheric pressure, high, in the cure of diseases of the chest, 484
Atropine, case of poisoning by, recovery, 8
Atropized and Calabarized gelatine paper for dilating or contracting the iris, 65, 115, 453
Aural Surgery, a Vindication of the Present State of (review), 355
Axillary artery, spontaneous closure of the, 233

Bacon, Dr. G. M., a brief account of the government regulations on prostitution in Italy, and of the Sifilicomio in Naples, 351
Bacteriums and typhoid fever, 26
Bain, Mr. A., the Senses and the Intellect (review), 410
Bantingism, 520, 571
Barnes, Dr. R., description of a new craniotomy forceps, 11; on spondylolisthesis, 609
——, Mr. J. H., a medical defence fund, 88
Bartolomè, Dr. M., testimonial to, 426
Basile, Dr. G., Storia della Ferita del Generale Garibaldi (review), 467
Bath Hospital, the Albert wing of the, 684
—— Microscopical Society, 290
Battle of the Standards, the (review), 327
Bavaria, mortality in, 27
Beale, Mr. J. S., fatal hæmorrhage after delivery, caused by the presence of a placental uterine polypus, 463
——, Mr. L. J., the Stomach Medically and Morally considered (review), 127
Beberine, sulphate of, 458
Beck v. Farey, 229
Bedford, Mr. C. S. P., on the diseases of Tasmania, 121
Bedford New Dispensary, 54
——, the health of, 683
Behrend, Dr. H., on the action of bromide of potassium in inducing sleep, 607
Beigel, Dr. H., on spirometry, 119, 180
Bennet, Dr. J. H., celibacy and marriage in relation to uterine tumours, 81; on the hypodermic treatment of uterine pain, 296; on chronic metritis, 630
Bennett v. Hickson, the case of, 145
Bentley, Professor, lecture on the organic materia medica of the British Pharmacopœia, 300
Bequests, 26, 141, 314, 655, 735
Bethlehem Asylum, removal of, 448
Bethnal-green board of guardians and Dr. Moore, 401, 569
Bickersteth, Mr. E. R., on a new operation for obtaining union of an ununited fracture, with remarks on its application in certain cases of recent fracture, 325; on ununited fractures, 621
Bigg, Mr. H., a new truss, 570
Bile, the colouring matter of the, 401
Bingley, Dr. C. W., on a case of poisoning by arsenic, 697
Birch, Dr. S. B., a case of distress, 295, 395
Birkenhead, medical officer of health for, 141
Birmingham Children's Hospital, 141
Births and deaths in London during 1863, 201
Blackheath, the battle of, 300
Bladder, on distension of the, considered as a cause of post-partum hæmorrhage, 11; exfoliation of the mucous membrane of the, 40; case in which a portion of tobacco-pipe was broken into the, and successfully removed after the use of the lithotrite, 350
Blind, the, 419
Blyth, Mr. E. J., the chlorine treatment of scarlet fever, 87
Bombay, sanitary measures in, 86; medical service, the, 367; conservancy of, 567
Bone, dead, on the absorption of, 287
Boott, Dr. F., obituary of, 113
Boulton, Mr. T., on a case of monstrosity, 517
Bowel, perforation of the, in a case of tuberculous disease of the peritoneum, 184
Bradford Infirmary and Dispensary, 201; Eye and Ear Infirmary, 426
Brady, Dr. J., on medical protection societies, 44
Brain, plastic lymph lining the lateral ventricle of the, 125; epilepsy from deposit in the, 184
Branson, Dr. F., the case of intestinal obstruction at Tunbridge, 506
BRIGHTON CORRESPONDENCE.—Cases of abdominal tumour, 53; the town drainage, 311; peculiar case of disease, ib.
Bright's disease, glossitis and œdema glottidis, 244
Brinton, Dr. W., on a case of cerebral meningitis, 3
British Medical Association, 23; the prize of the, 404
—— surgery in Paris, 86
Briton Medical and General Life Association, 369, 397
Brodie, Dr. G. B., statistics of Queen Charlotte's Lying-in Hospital, 630
Bromide of potassium, on the action of, in inducing sleep, 607
Broom, work for the, 393, 429
Brown, Dr. A., Symm v. Fraser and Andrews, 58
——, Dr. J. H., Spectropia, or surprising Spectral Illusions, showing Ghosts everywhere and of any colour (review), 13
——, Mr. I. H., on ovarian dropsy, 11; on the causes of fibrous tumours of the uterus, 53; on the diagnosis of ovarian disease, 117; on ovarian dropsy, 177; vesico-vaginal and urethro-vaginal fistula, 263; recto-vaginal fistula, 347; on fibrous tumours of the uterus treated by surgical means, 353; prolapsus of the uterus, bladder, and rectum, 543
Brouiquel, the fossils of the cave of, 679
Bryant, Mr. T., on some cases of ovariotomy, with remarks, 353; two cases of stone in the bladder of the female treated by rapid urethral dilatation, 578
Bryson, Dr., on epidemic pleuro-pneumony in some ships in the Mediterranean fleet in 1860, 41
Budd, Dr. W., Variola Ovina (review), 68
Bude, Mr. W. U., medical benevolent societies, 710
Burge, Mr. F. J., life and health assurance, 137
Burial of still-born children, the, 141
Burke, Dr., of Killaloe, testimonial to, 229
Burnett's disinfecting fluid, poisoning by, 35
Burns, treatment of, 2, 204
Burrows, Dr. G., the testimonial to, 419
Burns, treatment of, 1
Buxton, Mr. J. H., testimonial to, 27
Buzzard, Dr. T., the laryngoscope, 731

Cæcum, cases of inflammation of the, 37; clinical remarks on cases of inflammation of the, 65
Calabar bean, particulars of a case in which it was freely administered, 349
Calculi, seven tolerably large, removed from the bladder of an adult, by median lithotomy, with a fatal result, 314; removed from a woman who had had prolapsus uteri, 579
Caldwell, Mr. J., tracheotomy in a case of croup, an unusual complication, 233
Callender, Mr. G. W., some account of the amputations performed at St. Bartholomew's Hospital from Jan. 1st, 1853, to Oct. 1st, 1863, 211
Calomel, what is? 475
Cambridge, scholarships in natural science in, 173; natural science at, 215; scholarships at Downing College, 272, 713; University, 137, 196, 598, 656, 684, 734; honorary degrees at, 625; scholarship examination, 715
Cancer, of transverse colon, 40; osteoid, removal of the greater portion of the right clavicle for, fatal result from pyæmia with cardiac affection, 122; of the Female Sexual Organs, a Clinical Report on (review), 100; of the ovary in a child, 261; of the omentum, with deposits in the peritoneum, pleura, lungs, liver, and uterus, 411
Candler v. Pont, the case of, 87, 114
Canton, the medical mission at, 314
Cape of Good Hope, hæmaturia of the, 158
—— Verde Islands, 598

Capillary tubes for preserving vaccine lymph, 601
Capital punishment, abolition of, 341
Carcinoma of pleura, 124
Caries, and its relation to necrosis, observations on, 4, 33; and necrosis of the bones of the skull, on, 205, 239
Carlyon, Dr., of Truro, obituary of, 342
Carotid arteries, ligature of both common, within six days, 90
Carr, Dr., monument to, 342
Carson, Dr. J. C. L., cross-birth, 453
Casper, Prof., death of, 285
Castor oil, rancid, 174
Cataract, on, with reference to improved methods of diagnosis and treatment, 405, 631; description of a new instrument for the extraction of, 606
Cattle, diseased, case illustrating the dangers of slaughtering, 182; and sheep, disease in, 229; and meat, prevention of disease in, 278
—— Diseases Prevention Bill, 313, 314
Census, the general report of the, 255; of occupations, 426
Central Middlesex, annals of death in, 649
Cerebellum, hæmorrhage into the, 125
Cerebral meningitis, on a case of, 3
Cervical vertebræ, a periosteal node of the, causing obstruction of the pharynx; rapid subsidence of the swelling under the use of iodide of potassium, 382
Chalky soils, the influence of, on health, 57
Chalmers' Hospital, Edinburgh, 362
Chambers, Dr. T. K., illness of, 492, 593
Chapman, Dr. J., on the Functional Diseases of Women (review), 213; on vaso-motor therapeutics, 633

Ministerial wit, 730

MIRROR OF THE PRACTICE OF MEDICINE AND SURGERY IN THE HOSPITALS OF LONDON.

BRITISH LYING-IN HOSPITAL.—Disorders of lactation; threatened "milk abscess," 155
FARRINGDON GENERAL DISPENSARY.—Relationship of herpes circinatus and tinea favosa, 382
GREAT NORTHERN HOSPITAL.—Enchondromatous tumour under the lower jaw, 464
GUY'S HOSPITAL.—Icterus from almost complete closure of the common bile-duct; distension of the hepatic duct to the size of a child's intestine, as well as of the common bile-duct beyond the constriction, 7—Carcinoma of pleura, completely surrounding a branch of the pulmonary artery in two situations, 124—Malignant tumour about the kidney, 184—Epilepsy from deposit in the brain, ib.—Bright's disease; glossitis and œdema glottidis, 244—Acute laryngitis, with œdema; degenerated kidney; epilepsy, ib.—Addison's disease of the supra-renal capsules, with characteristic melasma; fatal result; autopsy, 269—Aneurism of the aorta opening into the superior vena cava, 409—Ivory exostosis growing from the forehead, above the edge of the orbit, 436—Suppurative phlebitis of the liver; adhesion of the viscus to the stomach and diaphragm, 464—Internal strangulation of intestine, proving fatal, and presenting the characters of an obturator hernia, 489—Carcinoma about the gall-ducts, causing jaundice, 699
HOSPITAL FOR DISEASES OF THE SKIN.—Case of acute syphilitic pemphelix, 9
KING'S COLLEGE HOSPITAL.—Malignant tumour of left antrum, involving left side of hard and the whole of soft palate, 6—A case of very irritable stricture of the urethra successfully treated by forcible dilatation with Holt's dilator, 38—Stone in the bladder of a man on whom the operation of lithotomy had been twice previously practised; lithotrity, 124—Stricture of the urethra of seven years' duration; dilatation by Holt's dilator; successful issue, 210—A periosteal node of the cervical vertebræ, causing obstruction of pharynx; rapid subsidence of the swelling under the use of iodide of potassium, 302—Case of cancer of the omentum, with deposits in the peritoneum, pleura, lungs, liver, and uterus, 411—Case where a portion of tobacco-pipe was broken into the cheek, and remained there for seven months; successful extraction, 490—Stone in the bladder; lithotomy, followed by a severe attack of bronchitis, acute abscess, and erysipelas; recovery, 636
LONDON HOSPITAL.—Double hydrocele of large size, cured by double injection, 210—Stone in the bladder for upwards of fourteen years, with enlarged prostate, relieved by different operations, the final one proving fatal, 323—Menstrual retention from imperforate hymen, with distension of one of the Fallopian tubes; clinical remarks, 331—Amputation at the shoulder-joint after attempted resection for acute necrosis of the head and shaft of the humerus, and destruction of the articulation, 609
METROPOLITAN FREE HOSPITAL.—Disease of tarsal bones; Syme's operation; successful result, 124
MIDDLESEX HOSPITAL.—Severe injury to the fore-arm from a steam thrashing-machine; secondary amputation; good result, 38—Operation for fistula in ano; internal piles and fissure of the anus in a patient four months advanced in pregnancy; satisfactory result, 96—Strangulated congenital hernia; operation; recovery, 210
ROYAL FREE HOSPITAL.—Disorganisation of the head of the femur into the thyroid foramen, with fracture of the upper part of the shaft; reduction; perfect recovery, 37—Five cases of vesical calculi; lithotomy in three and urethrotomy in two cases; successful results, 324
ST. BARTHOLOMEW'S HOSPITAL.—Removal of the greater portion of the right clavicle for osteoid cancer; fatal result from pyæmia, with cardiac affection, 122—Subcutaneous melanosis, scattered over the trunk and extremities, the "tuberculated sarcoma" of Mr. Abernethy, 183, 382—Hypertrophy and prolapsus of the tongue in a child

producing deformity of the lower jaw; removal with the écraseur, 436—Severe injury to the arm from a printing machine; amputation at the shoulder-joint, without cutting through the integuments; rapid recovery, 610

St. GEORGE'S HOSPITAL.—Icterus from mechanical closure of the hepatic and cystic ducts by a cancerous tumour, 8—Lobular pneumonia ending fatally; disease of the supra-renal capsules found after death, 66—Obstruction of the pulmonary artery by coagula, causing sudden death, 123—Clinical remarks on three cases of vesico-vaginal fistula, successfully treated, 183—Extensive tuberculous disease on the external surfaces of the peritoneum, with perforation of the bowel, 184—Fibro-cellular tumour of the anterior mediastinum, extending upwards into the neck; death in an attack of dyspnœa, 244—Aneurism of the abdominal aorta, the size of a cricket-ball, bursting outside the peritoneum, 410—Granular degeneration of the kidney, fatal from typhus (?) fever; obstruction of the cystic duct by a gall-stone, giving rise to dropsy of the gall-bladder, 463

St. MARY'S HOSPITAL.—Case of poisoning by atropine; recovery, 8—Substitution of atropized and calabarized gelatine for paper for the purpose of dilating or contracting the iris, 65—Case of purpura hæmorrhagica, with extensive hæmorrhage from the gums and tongue; fatal result, 209—Retention of urine from stricture of sixteen years' standing; cured by Holt's dilator, 489

St. THOMAS'S HOSPITAL.—Bad case of suicidal cut-throat, between the hyoid bone and thyroid cartilage; hæmorrhage; recovery, 94—Cases illustrative of injuries to the abdomen, with clinical remarks, 698

SEAMEN'S HOSPITAL, "DREADNOUGHT."—Cases of inflammation of the cæcum, 36, 65

UNIVERSITY COLLEGE HOSPITAL.—Necrosis of the clavicle, the result of syphilis where mercury had never been used, 37—Bromide of ammonium in whooping-cough, 66—Seven tolerably large calculi removed from the bladder of an adult by median lithotomy; fatal result, 324—Large uric acid stone in the adult; median lithotomy; recovery, 325—Primary disease of the sterno-clavicular articulation, 382—Myeloid tumour of the lower end of the humerus; amputation at the shoulder-joint; recovery, 609

WEST LONDON HOSPITAL.—Cases of gastralgia and irritable stomach; use of the purified oxide of manganese, 270—Hip-disease, with caries of the head of the femur; excision; recovery with useful limb, 457—Necrosis of the tibia; secondary affection of the knee-joint; metastatic abscesses in both breasts; amputation of the thigh; recovery, ib.—Partial necrosis of the phalanges of the forefinger, treated conservatively with success, 630

WESTMINSTER HOSPITAL.—Remarkable constriction of the entire trachea and large bronchi; tracheotomy; inability to get in a tube; fatal result, 95—Aneurism of the arch of the aorta, as large as a child's head, bursting into the right pleura, and filling it with blood, 411—Delirium tremens supervening upon an operation for strangulated hernia; ineffectual use of tincture of digitalis; fatal result, 638

Mnemonics, lectures on, 539

Monstrosity, on a case of, 517

Moore, Dr. C., the dismissal of, from Bethnal-green Union, 468

——, Mr. C. H., on a new method of procuring the consolidation of fibrin in certain incurable aneurisms, 383; on periodical inflammation of the knee-joint, 485
